In this *free* offer, Britannica is making selected E-Book titles available for students and others to access and enjoy for a temporary period of time. This resource is great for classroom use, in after-school programs and summer school, or for homework help! It may be particularly useful for students who have been displaced from their traditional campus-based learning as a result of school closings.

Please see the information below to access the program materials. Depending on how long it is necessary for schools to operate online, Britannica may periodically change the titles available to users.

The vendor is pleased to offer these free curriculum correlated collections in the following categories:

- Elementary Spanish
- Elementary STEAM
- Elementary ELA
- Middle School Social Studies
- Middle School STEAM
- High School STEM
- High School World History

You can also view a list of the available titles in [this spreadsheet](#). Access will remain free through June 30, 2020, from any device you choose both online and offline.

Access to Britannica E-Books is easy and comes with options

- Go to ebooks.eb.com and use the username/password authentication above –or– download the *iPublishCentral Reader* for offline use.
- After you login to your bookshelf, you will have the option to read either online or offline.
- After logging in on a particular device, you will not need to log in again.
- After [downloading the spreadsheet](#), you can click on the individual titles to go directly to that particular book.
